

Ring Pointer

World's first Ring Style Presenter

Genius introduces the next generation ring style presenter for business, education and i-users - Ring Pointer. Its ergonomic, lightweight design and polished high tech look fits securely on your finger and is sure to capture anyone's attention.

With button control air-presenter technology, you have complete access to control powerpoint slides, Play (F5)/Exit, Last/Next Page, blank screen and the laser pointer from anywhere in the room when doing a presentation.

Ring Pointer is a cutting-edge touch technology innovation, powered by the slimmest Li-ion rechargeable battery design to protect the environment while you enjoy the simplicity you've always wanted when giving presentations. Also, the smart battery-low indicator flashes in blue when it's time to recharge. The Ring Pointer's worry-free 2.4GHz technology provides a reliable working performance and a laser pointer that can work at a distance up to 10 meters. With its new circular design for improved thumb control and a silver electroplated finish, it's sure to steal the show during any presentation.
